**INQUIRY INTO USE OF BATTERY CAGES FOR HENS IN
THE EGG PRODUCTION INDUSTRY**

Name: Ms Jane Cameron

Date Received: 27 June 2019

I believe hens should not be cruelly confined in battery cages and given sufficient space to move properly unhindered by over crowding or cage confinement. With access to the outside area as well

The phasing out of battery cages should happen for the the entire egg industry.

Also I think cameras should be should installed in all animal processing plants

thanks Jane Cameron
