Partially  
Confidential

1. Not all festivals require development applications.
2. Why are festivals and event treated differently to all other forms of development.
3. The process should be treated in the same way as integrated development under the EP and A Act.
4. A flowchart of the process though all the various government, state and local approvals is required.
5. Undertake a Process Audit for all controls, policies, plans of management, practices, delegations affecting the assessment of festivals.
6. Data about festivals is usually withheld based on "commercial in confidence" or "internal uses only" justifications. Therefore, any details of costs or benefits of events remains hypothetical and unverifiable.
7. There is no publicly accessible tracking system for events - where everyone knows what's going on and who is doing what. A minor tweaking of the DA system could achieve this
