**INQUIRY INTO USE OF BATTERY CAGES FOR HENS IN
THE EGG PRODUCTION INDUSTRY**

Name: Mrs Kelsie Pirini

Date Received: 27 June 2019

Im writing to voice my concern about battery caged hens. As a member of the public I think its wrong to cage any animal, especially with the cruelty associated with the egg industry. There needs to be more monitoring and no option of caged eggs sold if people insist on still eating eggs, no matter the cost!
