**INQUIRY INTO USE OF BATTERY CAGES FOR HENS IN
THE EGG PRODUCTION INDUSTRY**

Name: Mr Ted Hume

Date Received: 27 June 2019

It is barbaric and cruel to continue the current methods - how in this day and age can farmers treat living creatures so appallingly? Animal welfare is growing and powerful cause and consumers are acting accordingly. The industry needs to change - for ethical and commercial reasons. End the use of cages. Bring in a plan to phase them out.
