**INQUIRY INTO USE OF BATTERY CAGES FOR HENS IN
THE EGG PRODUCTION INDUSTRY**

Name: Mrs Melissa Rubilar

Date Received: 27 June 2019

I am truly concerned for the well-being of chickens in battery cages and find it extremely cruel that this is still happening and want to give a voice to those innocent sentient beings that don't deserve to be treated with such cruelty and for all those suffering in the the entire egg industry

Please stop this from happening. Humans should not harm anyone

Hope you can find compassion and make a positive difference

Thank you for listening
