**INQUIRY INTO USE OF BATTERY CAGES FOR HENS IN
THE EGG PRODUCTION INDUSTRY**

Name: Mr Matthew Leigh-Jones

Date Received: 27 June 2019

It is time for the NSW government to take end battery hen farming. Our society is ethically and technologically advanced enough to ensure that the treatment of farm and farmed animals is of a standard that ensures the animals are treated humanely and do not suffer throughout the farming process.

Thank you.

Regards

Matthew Leigh-Jones
