**INQUIRY INTO USE OF BATTERY CAGES FOR HENS IN
THE EGG PRODUCTION INDUSTRY**

Name: Ms Tersem Kaur

Date Received: 1 July 2019

Please stop confining hens or any animals to cages let alone barren cages. Take for example if you were a bird and can hardly move let alone fly - how will you feel? You have a nervous system which makes you feel and have senses so if you are this bird, what will you do when humans confine and hurt you and then torture and kill you?

Just because you are not this bird right now doesn't give you the right to dictate how it should be kept and treated. Humans have no right to dictate how and where and when any creatures should live or otherwise. When the consumption stops, all this will stop.

Just try confining yourself for 2 days as you do to them and be honest on how you feel and think about what you encourage and support of these poor creatures. Stop the cruelty!
