**INQUIRY INTO USE OF BATTERY CAGES FOR HENS IN
THE EGG PRODUCTION INDUSTRY**

Hello there,

It has come to my attention about the battery hens and how poorly they are being treated. There are 11-12 million battery chickens Australia wide. They are being treated like criminals and I know that these chickens have done nothing to deserve to be treated like this. They are made to be on wire shelves and wracks which are bad for them. Please do something about this. I know that as a consumer I do not want to have unethically sourced eggs.
