**INQUIRY INTO USE OF BATTERY CAGES FOR HENS IN
THE EGG PRODUCTION INDUSTRY**

Name: Mrs Emma Cook

Date Received: 2 July 2019

I'm writing today as a voice for the battery hens. The daily trauma and discomfort that these poor chickens endure day in and day out is unacceptable. These creatures provide us with gifts of life and to throw it back in these face is disgraceful as a society. We need more public awareness and these horrible people to be accountable for their actions. These people are criminals.
