No 219**

**INQUIRY INTO USE OF BATTERY CAGES FOR HENS IN  
THE EGG PRODUCTION INDUSTRY**

**Name:** Kerry Rieve

**Date Received:** 5 July 2019

---

To keep a living creature in a cage no more the size of an A4 sheet is the grossest cruelty. This is done to battery hens. This should not be allowed in a civilised country. Any person debating this bill should understand that this is an intolerable life for a living creature and should not vote for profit of companies .

Animals should not be factory farmed like this. It is an abomination. They should be free to move and stretch their wings. Voting for keeping a living creature in this state is totally cruel.
