Re: Submission in support of phasing out battery cages in New South Wales

Animal Wellness Essentials strongly oppose battery cages and fully support the Animal Justice Party in their pursuit to phase out this dated and cruel system of farming

- Australia is behind the times as Europe phased out battery cages in 2012
- New Zealand is phasing out battery cages by 2022

All animals have a right to quality of life and should be provided with a healthy environment that includes treated and handled humanely.

Kindest regards
