**INQUIRY INTO URANIUM MINING AND NUCLEAR
FACILITIES (PROHIBITIONS) REPEAL BILL 2019**

Name: Ms Keri James

Date Received: 4 July 2019

Please consider this a submission - I reject the dangerous, thirsty and costly uranium industry and instead want a clean nuclear free future for NSW. I refer you to the uranium free charter. The risks and real threat of the nuclear industry persists. Uranium and the nuclear cycle of weapons and waste is unwanted, unsafe, and uneconomic.

Yours Sincerely,

Keri James.
