

**INQUIRY INTO OPERATION AND MANAGEMENT OF
THE NORTHERN BEACHES HOSPITAL**

Name: Ms Sandy Tall

Date Received: 5 July 2019

Mona vale PUBLIC hospital. Leave the building and fix it. Dont demolish it

Am writing this to save our hospital building (not so old as some other hospitals that have been renovated)

When you think that just a few years ago the maternity ward was renovated. And they (politicians)wont do the same to the rest Their excuse is asbestos. But the same applied to maternity. And still that was renovated😊

Its a monetary situation not an unhealthy situation. Smells distinctly like politically pecuniary bs 😞

And i have concerns for the many young families now living between narrabeen and palm beach. So many many more living here than when the hospital opened in 1964. And lets face it frenchs forest hospital is a place too far and also not public enough!!
