I believe that this is monumentally the worst decision the state govt's made. What will it take for them to realise? How many deaths will it take? How many near misses due to flooding, inaccessible traffic and the expense of using helicopters? It is imperative that we keep Mona Vale hospital, sell the rest of NBH to the private owners, revamp MVH, which should have been done years ago. The NBH feels like an experiment that has not worked and is putting lives at risk. We need Mona Vale Hospital back up and running. A true public hospital for the people.
