**INQUIRY INTO USE OF BATTERY CAGES FOR HENS IN  
THE EGG PRODUCTION INDUSTRY**

**Name:** S.M. Garland

**Date Received:** 4 July 2019

---

Dear Committee for legislation for Poultry Industry / my submission

With years of submissions from animal welfare groups we the public are not satisfied with the inhumane practices that continue to be allowed in this factory farming.

Nor the enforcement of the existing legislation by to few random checks of regulations already violated by these "eggs/chickens producers.

I politely request that this poultry industry if caged chickens be reformed to the best practices target of • increased space for chickens flapping wings and their natural animal socialising

• to resist the lobbying that these farmers that they loose money if the must change when more public buy free range eggs / chickens

Thank you for making an improvement to a shabby industry of caged factory farming!

Yours faithfully  
S.M Garland
