**INQUIRY INTO KOALA POPULATIONS AND HABITAT IN
NEW SOUTH WALES**

Name: Ms Thea Eves

Date Received: 4 July 2019

To the Members of the NSW Legislature.

The solution to the plight of the Koala is blindingly obvious. Stop felling the forests where they live. Put a blanket ban on any forestry activity, public or private, in their habitat.

Avoid the ignominy of being judged by history as elected few who aided in the extinction of the Koala.
