**INQUIRY INTO KOALA POPULATIONS AND HABITAT IN
NEW SOUTH WALES**

Name: Mr Terence Doherty

Date Received: 8 July 2019

We cannot stand by and let the Koala become extinct. As a government you have to be held responsible for the actions that occur over massive land clearing of the Koala habitat. Will you really let this happen? Please put a end to this land clearing regardless of money and do what is necessary to protect our own endangered animals. Thankyou.
