**INQUIRY INTO KOALA POPULATIONS AND HABITAT IN
NEW SOUTH WALES**

Name: Ms Melisse Reynolds

Date Received: 15 July 2019

Protect all forests and habitats immediately. You already know all the reasons. Retrain those whose employment is affected into sustainable tourism or other work. We need to stop all logging and use hemp products. Evidence for all these measures is common knowledge and the parliament is failing its duty to the citizens and wildlife of this country. This is urgent. Stop all land clearing immediately Protect all habitats and all current forests immediately.
