Dear Committee Members,

During my almost 80 years I have been fortunate enough to travel the world and gain feedback from many people from many countries. In every Country I have been there is an overwhelming interest in Australian Wildlife and in particular, our Koalas. Unfortunately, I have also witnessed the gradual demise of these unique creatures; not only are they unique to Australia, but as far as known, unique to the known Universe.

We need to show more appreciation for what we have: Koalas need to be classified as National Trust Historic Fauna.
