

**Submission  
No 427**

**INQUIRY INTO USE OF BATTERY CAGES FOR HENS IN  
THE EGG PRODUCTION INDUSTRY**

**Name:** Mrs Emily Brollo

**Date Received:** 24 July 2019

---

As a concerned community member, I have personally visited battery hen farms in NSW over the past 20 years. The vast scale of immense cruelty never fails to astound me. This system of farming is completely unnecessary and unacceptable in 2019, I urge the committee to take this opportunity to fully realise and comprehend the suffering millions of individual animals are continuously subjected too. And make the only compassionate choice to ban battery hen farming.
