**INQUIRY INTO USE OF BATTERY CAGES FOR HENS IN
THE EGG PRODUCTION INDUSTRY**

Name: Mrs Sue Moran

Date Received: 24 July 2019

I would like to respectfully request that the NSW Government tradie responsibility to end the suffering of caged hens.

Their suffering as sentient beings is unconscionable. They should be able to act and behave and live freely with the support of legislation.

We have fostered rescued hens in the past and we have some permanently with us now. Their personalities are shining through now that they are no longer frightened of humans.

It id's terribly sad to think of their lives as battery hens prior to their rescue.

They are sentient beings, with as much right to a decent life as your cat or dog.

Thank you for your consideration.
