**INQUIRY INTO USE OF BATTERY CAGES FOR HENS IN
THE EGG PRODUCTION INDUSTRY**

Name: Wendy Maxl

Date Received: 25 July 2019

Really, what a miserable life to live being caged up like a prisoner with no access to hay, grass, sand, life , this is all they want but WE cannot give that to them because we are horrible beings who exploit everything. You try working, eating, sleeping in a tiny wire cage and see how you feel.
