**INQUIRY INTO USE OF BATTERY CAGES FOR HENS IN
THE EGG PRODUCTION INDUSTRY**

Name: Mr Derek Turnbull

Date Received: 19 July 2019

Dear Committee members,

Hens (and roosters) enjoy scratching in dirt, dust bathing, stretching their legs (and wings) and lying in the sun.

These things are known.

It is wrong to treat our food resources cruelly.

We can do better.

We should do better.

Please use this opportunity to set a new standard of compassion and integrity.

Thank you

Kind regards,
Derek Turnbull
