**INQUIRY INTO KOALA POPULATIONS AND HABITAT IN  
NEW SOUTH WALES**

**Name:** Name suppressed

**Date Received:** 27 July 2019

---

Partially  
Confidential

Koalas are extremely important not only to the environment but also as a symbol of Australia. The koala population and the environment they live in must be protected. Broadscale land clearing of public and private land must be stopped immediately. Koala populations must be identified and their range mapped out. There must be a Koala National Park established ASAP. Effective efforts must be made to control dog attacks and traffic impact. They must be protected and allowed to continue to live in as natural an environment as possible . Any Government that allows Koalas to go extinct will be held to account and will be vilified and shamed.
