**INQUIRY INTO KOALA POPULATIONS AND HABITAT IN
NEW SOUTH WALES**

Name: Ms Deirdree Wallwork

Date Received: 27 July 2019

It doesn't make sense to me to remove the habitat of one of our iconic animals just to make more habitat for humans whose requirements are not those of the koala. Developers would have us think that this landclearing is for the rest of us, but it is not. It is clearly greed. Lose the koala from NSW and we never get them back.

So create a giant koala park where they can be safe from marauding humans.
