**INQUIRY INTO KOALA POPULATIONS AND HABITAT IN
NEW SOUTH WALES**

Name: Ms Justine Curatolo

Date Received: 28 July 2019

Dear Committee

The Koala is an Australian icon, it deserves special protection.

The extreme commercialization of public land for profit to benefit the same few, is a disgrace and a reflection of the money loving, profiteering short sighted nature of people in power.

Destroying koala habitat IS NOT IN the national interest. Australia is becoming a laughing stock about how we sell out our future to corporations.

Koala's need protection, their habitat needs protection. You have the power to enact this.

Please do your legislated democratic duty and not the bidding of your corporate slave masters.
