**INQUIRY INTO KOALA POPULATIONS AND HABITAT IN
NEW SOUTH WALES**

Name: Name suppressed

Date Received: 29 July 2019

Partially
Confidential

I want to see serious consideration in relation to how roads and highways effect koala habitat. They need access to specific habitat free from danger of cars travelling at speeds that kill them. Reduced speeds in koala crossing areas. And safe koala crossings created when roads and highways are planned, preferably around their habitat instead of directly allowing roads to cut their habitat in half. Too many koalas are injured and killed on roads with high speed limits and unsuitable protective fencing.
