**INQUIRY INTO USE OF BATTERY CAGES FOR HENS IN
THE EGG PRODUCTION INDUSTRY**

Name: Mr Jeremy Richman

Date Received: 24 July 2019

Dear Committee members,

New industries are being created and fortunes are being made by companies that are taking a stand on animal welfare. Anything less than world-class leadership from the NSW Government in this area diminishes our reputation, harms our economy and risks leaving us behind while others take the ground we should be making our own.

Banning the outdated and cruel practices is such an easy place to start. Just go for it.

Cheers

Jeremy

Kind regards,
Jeremy Richman
