

**Submission  
No 166**

**INQUIRY INTO KOALA POPULATIONS AND HABITAT IN  
NEW SOUTH WALES**

**Name:** Ms Merle Thompson

**Date Received:** 31 July 2019

---

We are requesting  
that koalas wildlife corridors between the Georges and Nepean Rivers be protected to help  
protect the whole south west Sydney koala population.  
Install a Koala Park from Glenfield to Wilton and stop logging the old-growth forests  
We are asking for wildlife exclusion fencing on Appin Road, plus underpasses/overpasses as safe  
passage for our beloved Koalas and other wildlife. It's very important 🐾👉🐾 they have done  
this up north and on the northern beaches it has been successful it's a win win so PLEASE safe  
for drivers safe for maccauthurs wild life 🐾👉🐾 Koala protection fencing should be a priority to  
steer koalas to overpasses and underpasses,

Please these amazing Australian creatures deserve our respect 🐾 We are only custodians of the  
land , sea & skies we have no right to destroy – We need to protect our sanctuaries , bushland  
and National parks for future environment and for sea , bird & wild life creatures - our  
Australian unique species to re generate or they will be all gone .I would also like to request a  
Koala protection act which includes the koala , their feed trees and corridors – Thank You 🐾

Merle Thompson
