**INQUIRY INTO KOALA POPULATIONS AND HABITAT IN
NEW SOUTH WALES**

Name: Mr Rogan Hunt

Date Received: 2 August 2019

Dear Committee,

Please accept this letter as my submission to the Inquiry into koala populations and habitat in New South Wales. I consent to the committee making this submission and my name public.

The Koala is a fuzzy favourite of Australia and the world. It holds the hearts of populations all around the world and it should hold more of Australia's hearts. I won't type the whole naturalist demands thing. It's just import for it to be heard that there is concern that we are not caring for our little friends GOOD enough. They're habitation is continuously threatened and they're population numbers are sky diving without a proper parachute. They need a parachute and then a space ship to save their place in our ecosystem.

Please take care of our favourite Australian bears.
