**INQUIRY INTO PROPOSAL TO RAISE THE  
WARRAGAMBA DAM WALL**

**Name:** Mr Warren Birkinshaw

**Date Received:** 17 August 2019

---

I am totally opposed to the raising of Warragamba Dam. The reason given for raising it is flood mitigation and obviously storage capacity increase, but the environmental damage it would cause is too great to justify it. Your efforts would be better spent forcing the mining companies operating within Sydney's catchment to repair damage they have done to the inflow rivers and creeks, and therefore increasing the water flowing into our storage dams
