**INQUIRY INTO PROPOSAL TO RAISE THE  
WARRAGAMBA DAM WALL**

**Name:** Dr Nicolas Rasmussen

**Date Received:** 30 August 2019

---

I strongly oppose any dam or other flood control alterations that would flood, risk flooding, or otherwise harm the present Blue Mountains reserved area. The answer to Sydney's growing population is not unrestrained sprawl and destruction of nearby unspoiled areas, but the improvement of the rail system and concentration of new development along it. A Los Angeles-like wasteland is no grand vision for Sydney's future.
