**INQUIRY INTO PROPOSAL TO RAISE THE
WARRAGAMBA DAM WALL**

Name: Mrs Gillian Wilde

Date Received: 30 August 2019

The proposal to raise the height of the Warragamba dam will lead to great development on an at risk area of floodplain which would be highly irresponsible and lead to litigation and possible loss of life and property.

It will cause great damage and destruction to species which are only found there.

It is appalling to consider the wilful destruction of Aboriginal culture in their Country there.

One of the jewels in Sydney's crown is its proximity to a World Heritage area of astounding beauty and natural diversity. There should be no proposal to damage or destroy it.
