**INQUIRY INTO PROPOSAL TO RAISE THE
WARRAGAMBA DAM WALL**

Name: Mr Steven Hare

Date Received: 30 August 2019

I strongly object to the raising of Warragamba Dam. While I understand the requirements of the nsw dam safety legislation, raising of the dam given the sensitive environment and world heritage listing of the upstream dam environment is far too important relative to the purported need to raise the dam.

Insufficient time has been granted to the indigenous traditional owners to assess and comment on the potential impacts to sacred and heritage sites.

I kindly request that the above be considered in your inquiry.
