**INQUIRY INTO PROPOSAL TO RAISE THE  
WARRAGAMBA DAM WALL**

**Name:** Mr Richard Maschmeyer

**Date Received:** 30 August 2019

---

I wish to add my name to those who consider that the proposed raising of the Warragamba Dam wall to a height which will threaten to flood the World Heritage declared area cannot be justified by the purpose of increasing security of housing which should not be constructed in the nominated flood-prone area.

When did conservatives stop caring about conserving the Australian way of life, a large part of which is our countries natural beauty.
