**INQUIRY INTO PROPOSAL TO RAISE THE  
WARRAGAMBA DAM WALL**

**Name:** Mrs Michelle Halliday

**Date Received:** 4 September 2019

---

I strongly oppose the dam wall raising. As a proud Wiradjuri woman who lives on the boundary of the Warragamba Dam Catchment I am appalled at the limited assessment made by the NSW government on the environmental impacts of this project. The immeasurable loss of dreaming stories is catastrophic to the local people once again. The loss of sacred sites and cave paintings which are potentially thousands of years old once again dispossess our people from their culture YET AGAIN.

Haven't we lost enough. Eighty percent of our sites were lost when the wall first went up, why do you have to desecrate the remaining.

When is enough ENOUGH! would this be happening if it was European religious sites.....I think not!

This is not only our history, this is the history of your country too!!!
