**INQUIRY INTO PROPOSAL TO RAISE THE
WARRAGAMBA DAM WALL**

Name: Ms Julie Young
Date Received: 5 September 2019

Raising of Warragamba Dam wall

I oppose this proposal due to the adverse heritage impact on the surrounding area. I also object on environmental lines - shortsighted planning by the government has prompted this knee jerk action for water supply.

Why has there not been consistent water restrictions placed on all water catchment/supply areas?

Why has there been no proper planning and introduction of re-cycling of water throughout the greater Sydney area?
