**INQUIRY INTO PROPOSAL TO RAISE THE
WARRAGAMBA DAM WALL**

Name: Mr Hassib Lahoud

Date Received: 5 September 2019

I'm against raising the Warragamba Dam. We don't need any more destruction of the Australian flora and fauna. We must protect our Australian environment. Raising the dam would be a waste of tax payers money. Water desalination plants are the answer for Sydney water shortage. The energy used for this purpose would be Solar power and natural gas. Australia is rich in natural gas to my knowledge.
