**INQUIRY INTO PROPOSAL TO RAISE THE
WARRAGAMBA DAM WALL**

Name: Ms Victoria Waldron-Hahn

Date Received: 5 September 2019

Partially
Confidential

To the parliament of N.S.W.

I am a concerned citizen extremely worried about the proposed raising of the walls of Warragamba dam .

It is obvious even to me an average person that the proposal not for the benefit of the populace but simply to enable more development.

This fact is highlighted by dirty developer politics around this dam - like when Liberal Party donor, _____, sold flood-prone land at three times the price he purchased it for just after the project was announced.

There is too much to lose. The environmental damage and death of wildlife species by flooding that will be caused is unconscionable.

I urge you to put an immediate halt to any plans for extending the height of the dam walls both now and at anytime into the future.

I look forward to your reply

Victoria Waldron-Hahn
