**INQUIRY INTO PROPOSAL TO RAISE THE
WARRAGAMBA DAM WALL**

Name: Ms Jenny McLaughlin

Date Received: 5 September 2019

Thank you for accepting this submission

My name is Jenny McLaughlin and I have grown up in the beautiful Blue Mountains and I have lived all my life living the dream in the Blue Mountains. I currently own and run

and am an active member of Blue Mountains Tourism and Katoomba

Business Chamber.

The plan to raise the dam wall is a plan to destroy and harm our beautiful and unique Blue Mountains World Heritage National Park. If politicians want to line their pockets with money over protecting our natural world wonder and our first nation people artwork there is something very wrong with this plan. Please come to your senses and stop this terrible plan and find another way to secure the flood plains or just don't build there simple as that. Raising the dam wall will not stop flooding from the Hawkesbury river and this is the major flooding river not the Nepean river. Please listen to the right advise and the people who have voted for you.

Kind regards

Jenny McLaughlin
