

**INQUIRY INTO PROPOSAL TO RAISE THE
WARRAGAMBA DAM WALL**

Name: Name suppressed

Date Received: 5 September 2019

Partially
Confidential

My submission is regarding opposition to the raising of the Warragamba Dam. The amount of evidence showing this is an absolutely terrible plan is available for all to see who wish to dig deeper, than just the facts being presented.

We need a government who isn't in developers pockets, who value the land they're managing, the future generations of their country and individual states and who stands up against vagrant misuse of the land, protected areas, wildlife and fauna.

With the future looking so bleak, please keep the light shining here. Say no to the raising of the Warragamba Dam wall.
