**INQUIRY INTO PROPOSAL TO RAISE THE
WARRAGAMBA DAM WALL**

Name: Name suppressed

Date Received: 6 September 2019

Partially
Confidential

1. Why when during water restrictions are we rushing aboriginal elders to respond to impact statements on their land?

2. Will 100% of the impact to environment and aboriginal land be completed before any work is started?

3. What amount of rainfall(considering current level) would we need for the current dam would not handle?

4. If the dam is for future flood protection when was the last time the existing dam was considering / forced to spill to prevent impact property?
