**INQUIRY INTO PROPOSAL TO RAISE THE
WARRAGAMBA DAM WALL**

Name: Name suppressed

Date Received: 6 September 2019

Partially
Confidential

The NSW Government must investigate the corrupt developer dealings connected with the raising of the Warragamba Dam and the flood plains of the Hawkesbury Valley. The properties were bought and sold by a foreign donor to a NSW Government Party and now these properties are sitting on a flood plain. The Member for Western Sydney is pushing for the raising of Warragamba by 14 metres. Raising the Dam wall will irreversibly devastate the Blue Mountains environment and take away all Indigenous rights to their country and heritage. There are other ways of channeling flood waters in the Valley and the NSW Government should lead the way in instigating new ways of water management, starting with the Hawkesbury Valley.
