**INQUIRY INTO PROPOSAL TO RAISE THE
WARRAGAMBA DAM WALL**

Name: Mrs Marie Jeanette Hutchison

Date Received: 6 September 2019

Raising the dam wall won't make it rain. There is plenty of salt water and another salination plant should be built.

Aboriginal sites must be maintained as a top priority. We must keep as much heritage as possible especially as we are responsible for maintaining the sites of one of the oldest groups of people on this earth.
