**INQUIRY INTO PROPOSAL TO RAISE THE
WARRAGAMBA DAM WALL**

Name: Mrs Cita Murphy
Date Received: 6 September 2019

Dear Members.

I am against the Warragamba Dam's wall being raised because it will flood part of the World Heritage Blue Mountains National Park. The loss of Australian Flora, Fauna and Aboriginal Special Places is totally against what the World Heritage National Park has been designed to do which is to protect World Heritage Areas. The World Heritage National Park should be protected by all levels of Australian Government and not flooded so developers can put developments on flood plains.

Please Protect the Blue Mountains World Heritage National Park and do not allow the NSW State Government to raise the Warragamba Dam wall.

Thankyou.
