

**INQUIRY INTO PROPOSAL TO RAISE THE  
WARRAGAMBA DAM WALL**

**Name:** Name suppressed

**Date Received:** 6 September 2019

---

Partially  
Confidential

I opposed the raising of the Warragamba dam. This would cause the flooding of large areas of World Heritage wilderness in the Blue Mountains National Park. This will also threaten the existence of species which are under the threat of extinction as well as the loss of aboriginal sites in the area. While this is being proposed for the benefit of developers who wish to cover up the flood plains with houses these homes will still be threatened with flooding from the Nepean River.

I am therefore asking the government to change this proposal to destroy world Heritage areas of the Blue Mountains.
