**INQUIRY INTO PROPOSAL TO RAISE THE
WARRAGAMBA DAM WALL**

Name: Mr Chris Port
Date Received: 7 September 2019

I object raising the Warragamba Dam and the resulting flooding behind the dam. Controlled release is all that is needed to prevent downstream flooding. If we need more water for large increase in population in the Sydney area I am against large population increases as we need to slow consumption and get a grasp on the Earths capacity .
