No 245**

**INQUIRY INTO PROPOSAL TO RAISE THE  
WARRAGAMBA DAM WALL**

**Name:** Ms Colleen Fagan

**Date Received:** 7 September 2019

---

I am quite concerned at this proposal that will affect a large amount of environmental areas.

1. Air quality in surrounding areas
2. Changing environment of weather quality.
3. Endangered species will be threatened to near extinction.
4. Loss of trees will change the environment.
5. Lack of water management. Much should be made in water conservation. Recycling, water usage, time of water usage & what for!
6. What affect will this have on water quality in other creeks, rivers, poundage?
7. Tourists prefer to see natural bush not dam impoundments.
8. I have grave concerns on proper management of these dams.
9. I am from NSW & grew up there & am ashamed at how water has been managed in NSW.
10. Concerns of locals ignored
