No 313**

**INQUIRY INTO KOALA POPULATIONS AND HABITAT IN
NEW SOUTH WALES**

Name: Mr Robert Trezise

Date Received: 30 July 2019

My submission is quite lengthy and unsuitable for electronic transmission.

My submission consists of copies of letters to the Coffs Harbour City Council and their replies, newspaper clippings and photos.

I wish to present my submission in person at a public sitting of the enquiry at Coffs Harbour.

My submission relates to the area known as Roberts Hill, where I reside.

My involvement with the koalas at this location dates continuously since 1988 when I moved to the area and became aware of koalas on a regular basis. Once that time, I have made many submissions to the Coffs Harbour City Council and volunteered to preserve and protect the habitat in my vicinity. Just recently a sign was erected to recognise the koala corridor on Roberts Hill. Further protection is needed by legislation to control the area in question.
