**INQUIRY INTO PROPOSAL TO RAISE THE
WARRAGAMBA DAM WALL**

Name: Mr Patrick Lloyd
Date Received: 7 September 2019

This area to be flooded is well loved as significant habitat by humans and native species under threat of extinction. Aboriginal historical sites will be lost forever. This is not acceptable. Housing in the Richmond Floodplain is not a good idea. Greedy needs should be ignored when it comes to this World Heritage Area. This is not a good idea environmentally or economically. The River will still flood and people will be devastated and the Government will have to inject money into situations that should have been avoided. NO DAM RAISING ! Selfish Corrupt Bullshit!
